Program Co-Directors

Eduardo Munilla, M.D.
Temple Physicians, Inc.
Temple University School of Medicine
Philadelphia, Pennsylvania

Robert B. Ocasio, M.D.
SILAMP President
Underwood Memorial Hospital
Internal Medicine Practice
Woodbury, New Jersey

Faculty

Karen Agersborg, D.O.
Director of Endocrinology
Chestnut Hill Hospital
Philadelphia, Pennsylvania

Scott Hessen, M.D.
Clinical Assistant Professor of Medicine
Drexel University College of Medicine
Philadelphia, Pennsylvania

Frank Leone, M.D.
Associate Professor of Medicine;
Director, Penn Smoking Treatment Programs
University of Pennsylvania School of Medicine
and Presbyterian Medical Center
Philadelphia, Pennsylvania

Daniel McCormick, D.O.
Clinical Assistant Professor of Medicine;
Director of Cardiac Catheterization Laboratory
Drexel University College of Medicine
Philadelphia, Pennsylvania

Anthony Zacchei, M.D.
Practicing Ophthalmologist
Kremer Laser Eye Center
King of Prussia, Pennsylvania

General Information

The 17th Annual Carlos J. Finlay, M.D. Symposium is being held in recognition of Dr. Finlay and the contributions to medicine and behavioral health made by physicians of Latin heritage.

Carlos J. Finlay, M.D.

Dr. Carlos J. Finlay was a physician and epidemiologist who discovered the mosquito as the vector transmitting Yellow Fever to the human host. He was born on December 3, 1833, Puerto Principe, Cuba to a father of Scottish descent and a French mother. He later graduated from Thomas Jefferson Medical College, Philadelphia, Pennsylvania in 1855.

In 1881, at the Fifth International Sanitary Symposium in Washington, DC, he presented his theory of the mosquito as the carrier of the disease. He published his work in 1886, but his ideas were ignored for 20 years. In 1902, a United States Army Commission, led by Major Walter Reed, traveled to Cuba to do research on Yellow Fever, and ultimately proved conclusively, that mosquitoes carried Yellow Fever from person to person. Dr. Finlay was the Chairman of the Cuban Commission that worked very closely with Dr. Reed and the American Team. The disease was eradicated in Cuba and Panama. His birthday is celebrated on the American Continent as the Day of Pan-American Medicine in his honor.

The 17th Annual Carlos J. Finlay, M.D. Symposium

Saturday, May 1, 2010

Temple University Health Science Center
Student Faculty Conference Center
4th Floor Auditorium (SW corner of Broad & Ontario Streets)
Philadelphia, PA

Jointly sponsored by
Society of Ibero Latin American Medical Professionals (SILAMP)
The Cardiovascular Institute of Philadelphia (CVI)

The Cardiovascular Institute of Philadelphia (CVI)
P.O. Box 54632
Philadelphia, PA 19148
Phone: 215-389-2300
Fax: 215-389-5450
E-mail: CVIPhiladelphia@aol.com
Target Audience
Physicians and other health professionals treating or with an interest in healthcare for the Latino Community

Goals and Objectives
After attending the program participants should be able to:
- Recognize racial and ethnic barriers to access of healthcare - and strategize solutions to these challenges
- Discuss the spectrum of therapy – oral through insulin for patients with Type 2 Diabetes
- Compare and contrast pre mixed insulin versus basal bolus therapy
- Utilize established guidelines for the management of patients with Type 2 Diabetes
- Better utilize US Public Health Service approach to assist patients with smoking cessation
- Recognize the signs of nicotine addiction
- Describe the pharmacologic and device options for the treatment of patients with atrial fibrillation
- Compare and contrast available pharmacologic agents available for effective anticoagulation and anti platelet therapy
- Recognize the importance of ophthalmologic screening as an integral part of the primary care management of patients
- Screen for basic ophthalmologic conditions in the primary care office setting

Accreditation Statement:
This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint sponsorship of Temple University School of Medicine and the Cardiovascular Institute of Philadelphia. Temple University School of Medicine is accredited by the ACCME to sponsor Continuing Medical Education for physicians.

Certification Statement:
Temple University School of Medicine designates this educational activity for a maximum of 4.5 AMA Physician’s Recognition Award Category 1 Credit(s)™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Disclosure Policy:
It is the policy of Temple University School of Medicine; The Albert J. Finestone, M.D. Office for Continuing Medical Education to insure balance, independence, objectivity and scientific rigor in all of its sponsored or jointly sponsored educational programs. All faculty, program planning committee members, and Temple University School of Medicine Continuing Medical Education staff participating in programs sponsored or jointly sponsored by Temple University School of Medicine are expected to disclose to the program audience any real or apparent conflict(s) of interest related to the content of their presentation(s). The information presented at this CME program represents the views and opinions of the individual presenters, and does not constitute the opinion or endorsement of, or promotion by, Temple University School of Medicine, Temple University Health System or its affiliates. Reasonable efforts have been taken intending for educational subject matter to be presented in a balanced, unbiased fashion and in compliance with regulatory requirements. However, each program attendee must always use his/her own personal and professional judgment when considering further application of this information, particularly as it may relate to patient diagnostic or treatment decisions including, without limitation, FDA-approved uses and any off-label uses.
